#### Digital Earth Interagency Working Group; Meeting

**AGENCY:** U.S. Geological Survey.

**ACTION:** Notice of meeting.

**SUMMARY:** The Digital Earth Interagency Working Group, chaired by NASA with representatives from other Federal departments and agencies, will hold an open meeting at the USGS facility in Reston, Virginia, to discuss options for a near-term demonstration of the Digital Earth vision (for details visit [www.digitalearth.gov](http://www.digitalearth.gov)). Throughout Federal, State, and local government, the private sector, and other public sector interests, there exist data, infrastructure, partnerships, and capability to support the exploitation of geospatial information to answer questions of concern to students, researchers, community leaders, and others. The goal of this meeting will be to identify existing and emerging data, infrastructure, and tools that can be brought together to provide an "alpha version" of the Digital Earth vision in a limited number of use contexts (e.g., students asking a question about the effects of pollution on their community). The results of this discussion may lead to subsequent Commerce Business Daily requests for proposals.

**DATES:** The meeting will be held in the USGS main Auditorium on Monday, October 25, 1999, commencing at 8 a.m. and adjourning at 1 p.m.

**FOR FURTHER INFORMATION CONTACT:** To reserve a space at the meeting, please contact Mr. Mark Reichardt at (703) 648-5742, or via e-mail at [mreichardt@usgs.gov](mailto:mreichardt@usgs.gov). Although the meeting is open to all interested parties, space is limited and will be allocated on a first come basis. Please limit requests to one member of your organization.

Dated: October 6, 1999.

#### Conveyance of Mineral Interests in California

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of segregation.

**SUMMARY:** The private land described in this notice, aggregating 51.00 acres, is segregated and made unavailable for filings under the general mining laws and the mineral leasing laws to determine its suitability for conveyance of the reserved mineral interest pursuant to section 209 of the Federal Land Policy and Management Act of October 21, 1976. The mineral interests will be conveyed in whole or in part upon favorable mineral examination. The purpose is to allow consolidation of surface and subsurface of minerals ownership where there are no known mineral values or in those instances where the reservation interferes with or precludes appropriate nonmineral development and such development is a more beneficial use of the land than the mineral development.
